Authorization for Publication

During the registration process, your family completed the **Parental Release for Child-Non-Commercial** form. Under these guidelines, the publication of pictures and information states that we will not publish any photo that individually identifies students without prior notification.

Due to the immediacy of submitting press releases and accompanying photographs to local publications, it is often difficult for the school to obtain permissions required for identifying students in photographs.

As part of the registration process for the activity for which you are now registering your child, we are including this **supplemental** authorization for publicity.
